Small businesses and private residents frequently require help and assistance with various tasks and work projects. Such projects may simply involve the movement of furniture from one house to another, the shovelling of snow from a house entrance or providing temporary work assistance for a duration of time during a busy market season.

**Kirkkonummen Työsouuskunta KTO** is a joint collaborative effort involving volunteers from Kirkkonummi in the development of a work Cooperative. This Cooperative will facilitate the creation of short, medium and longer term work positions between employers or residents and prospective employees.

KTO will simplify the procurement and management of short and longer term jobs while minimising bureaucracy and providing effective and efficient working relations for the employee and employer alike.

KTO will ensure that all statutory financial obligations are directed to the appropriate institutions while simultaneously ensuring the employee receives his/her wages.

To finance the day to day costs and expenses of the Cooperative the invoice to the employer includes a small service fee.

KTO will encourage various target groups to participate in this enterprise particularly immigrants and those legally entitled to work in Finland.

KTO will be happy to answer any questions or provide further information should you have any questions, queries or comments. We look forward to hearing from you!
